DELPHINIUM

THE BURNS NEW HYBRID DELPHINIUM

(See back cover for illustration)

THIS new strain of light blue Delphinium is no doubt the most wonderful in existence.

After a number of years of careful selection and crossing I have succeeded in attaining the result which florists and gardeners have sought, a Delphinium that is both excellent for garden display and cut flowers.

The flowers are nearly all double with a beautiful shade of light blue and lavender, being neatly placed on long graceful spikes

This Delphinium has been crossed with the wild Delphinium of California, which makes them very robust and almost free from mildew.

DAHLIA SEED

Much pleasure can be derived from growing dahlia seed. Dahlias grow very easily from seed. Plant early, then transplant after danger of frost. They will make large plants the first year. New varieties are produced in this manner.

Great care has been exercised in the selection of these seeds. Their record speaks for themselves.

Seed artificially fertilized and gathered from the best varieties of Decorative Hybrid Cactus and Paeony Dahlias. \$1.00 a package.

A limited amount of choice Pompon seed, 75 cents per package.

From hundreds of testimonials comes the report that this seed has given better results than from any other source.

A SPECIAL OFFER ON POMPON DAHLIAS

These produce small compact flowers perfectly formed, reminding one of a miniature show dahlia. Very attractive. Unequaled for cutting and garden display. 35 cents each. 12 different varieties, \$3.00

To persons not acquainted with named varieties, I will offer a special collection of 12 different named dahlias for \$10.00.

The dahlias that are listed herein are responsible for me being awarded First prize (Trophy Cup) on Best 12 California Dahlias at the Dahlia Society of California Shows 1917, 1918, 1919, 1920, and Los Angeles growing exhibit 1921.

JOIN THE DAHLIA SOCIETY OF CALIFORNIA
